RE: October 4, 2001 Meeting

The October Meeting of the Planning Commission will be held on Thursday, October 4, 2001. We have not received any requests for the meeting but still have a few items on the agenda.

We will need to approve the Meeting/Worksession Dates for 2002. Calendars were sent out in your worksession packets.

Denise and I attended a seminar on Groundwater Protection Tuesday, September 25th. During the seminar they covered Planning and Zoning Tools. We will discuss this during the worksession portion of the meeting.

Jerry Adams is out of town this week and we will touch base with him on Monday for an update on the progress of the Master Plan.

If you are unable to attend the meeting please call Denise at 723-2558. See you there!
